

PROFILE

NAME: Trevor Jacek
HOMETOWN: Saskatoon, SK
ORIGINAL HOMETOWN: Allan, SK
AGE: 27
YEARS RACING: 9
FAMILY: Taylor (son, age 9)
PROFESSIONAL: Controller, Raum Energy Inc.
Wind Energy Manufacturing

FIRST RACE CAR: Current car but in stock trim

CURRENT RACE CAR: 1986 Pontiac Trans Am
406 cubic inch Small Block Chevy
500 horsepower
Pump gas, driven to the track
11.72 @ 116mph

BEST RACING MOMENTS: First event win in 2005 and winning the event on the 40th Anniversary Race in 2006.

WORST RACING MOMENT: A friend asked me to drive his car which had a new engine. The car ran great for the first few passes - new best ETs. On the third pass of the day, the motor ate itself, literally! What a mess! Oil and antifreeze everywhere. The staff and the other racers credited me for pulling over so fast to prevent oiling down the whole track but I have to admit that when I saw all of the smoke everywhere I thought the car was on fire and that is why I pulled over and got out so fast.
